DOCKET NO. SDWA-10-2013-0080 / Yakima Valley Dairies

Eric:

This communication is provided on behalf of the Yakima Valley Dairies, including Liberty Dairy, LLC and its associated dairy, the H&S Bosma Dairy (collectively the Dairies).

Attached is a detailed update regarding the ongoing lagoon abandonment activities at H&S Bosma Dairy.

- As noted in the attached letter, the abandonments of Lagoons 19 and 20 have been successfully completed. Confirmation monitoring data comply with the criteria defined in the EPA-approved abandonment plans.
- Removal of re-worked organic-rich soils from Lagoon 9 has been completed. Initial confirmation monitoring samples were collected on May 30<sup>th</sup> on the day of your most recent site visit. We will provide the results of those samples once they are received from the analytical laboratory.
- Removal of re-worked organic-rich soils from Lagoon 8 is in progress. We anticipate completion of that work and implementation of initial confirmation monitoring during the week of June 7<sup>th</sup>.
- We will provide additional updates and data transmittals to you as part of our weekly teleconferences. We anticipate providing you with the completion report for abandonment of these lagoons between July 1<sup>st</sup> and July 15<sup>th</sup>, 2019.

Please contact me directly if you have any questions or concerns.

It's been a pleasure working with you on this project.
